Thermafil® Plus Plastic Obturator Refills

Size	Pack of 20
Posterior Asst. 20-40	PVAP022
Anterior Asst. 45-90	PVAA022

Thermafil® Plus Obturators

These flexible, patented endodontic obturators in 25mm length feature a plastic, grooved core, coated with "alpha phase" gutta-percha. Designed to deliver a three-dimensional fill in one minute. Grooved core provides better backflow of the gutta-percha and easier retrieval should retreatment become necessary.
